

## *~Testimonials~*

***"We are so pleased to live here at Fairwood Retirement Village. Everyone is so friendly. We have two Schnauzers that live with us and many of the other residents enjoy them too. We are fortunate to have such a great place to live and great staff that care so much about the residents."***

***"My sister spent the past several years at Fairwood Retirement Village. When it came time for my sister to begin a new chapter in her life Fairwood Village became her new home. Without exception, staff and residents made her residing there comfortable, satisfying, and most-pleasant. She made many friends who consistently inquired about her, even when her health required her to be away from her community. Fairwood willingly made concessions when she needed extra care and services; especially when we requested additional home repairs and dining room support. Our family and friends are so very grateful for the care and compassion that made her final two years as easy and heartwarming as possible."***

*Janet Orr*

***"I searched for a retirement community for sometime before I chose Fairwood Village. This community was my top choice. After four years I still believe I made the right decision. The staff and residents have become my extended family. They go the extra mile to make this community more than just a place to live. All of my needs are met here with activities, the dining program, full sized swimming pool with water aerobics, bible study, beauty shop and transportation. I can easily get to doctor's appointments, the theatre and grocery shopping. My family is so pleased to know that I am in a safe, beautiful place!"***

***"We are second generation residents here at Fairwood Village. Our mothers resided in independent and assisted living. We were so happy with the care and support of the community, we chose Fairwood Village as our place to retire. We have met so many wonderful people and we are very happy with our cottage home."***
